

Year 3

Rivers and Ancient Egypt

P.E.

During P.E., we will be practising our skills in rounders and cricket. We will improve our hand-eye coordination skills by throwing and catching. We will learn to work effectively as a team and use these skills to play in a game. In athletics, we will be learning to sprint efficiently and practice running long distances. We will also be practicing field events, for example, throwing a foam javelin. In golf, we will be developing our accuracy when aiming towards a target.

P.S.H.E. & C.

In P.S.H.E. & C., we will begin the term learning how to live a healthy lifestyle, including physical activity, dental health, rest and diet. We will be learning how to break down problems into small achievable goals.

R.E.

In R.E., we will be finding out what Christians learn from the Creation story. Later in the term, we will be thinking of ways to make the world a better place.

Computing

This term in **computing**, we will be using the coding program, 'Scratch' to build skills that enable pupils to program an animation, story and a game. In the second half of the term, we will be exploring online safety and learning how to send emails.

D.T.

In D.T., we will identify and learn about the key features of a castle before designing and making our own recycled-material castle.

Science

In **science**, we will be looking at forces and magnets. We will investigate magnetic and non-magnetic items, looking at pushes and pulls and finding out what makes things speed up and slow down. We will also be investigating the different parts of a plant and pollination. Later in the term, we will be finding out about a range of different plants and animals that live in a range of habitats.

Art

In **art**, we will be exploring and creating Ancient Egyptian art. We will be designing and making scrolls using the styles, patterns and techniques used during this historic period.
